

Revisions and Updates to Staff Draft Forms and Instructions for Submitting Electric Transmission-related Data for the 2009 Integrated Energy Policy Report ¹

- 1) **Page 7, introduction to Specific Instructions.** Adds the phrase “to the extent possible” to the following instruction: For merchant transmission projects, the interconnecting utility/utilities should file the required information.
- 2) **Page 8, introduction to Data Request no. 1.** Requests electric transmission system owners to provide a status update (including a timeline with major milestones and a discussion of major issues affecting that timeline) of the ten major transmission projects recommended in the 2005 and 2007 Strategic Transmission Investment Plans.
- 3) **Page 11, Data Request no. 5.** Adds “Opportunities to export renewable-based generation outside of California” to the existing list of potential corridor needs.

¹ These updates to *Forms and Instructions for Submitting Electric Transmission-related Data, Staff Draft Report* (Energy Commission publication no. CEC-100-2008-012-SD), are incorporated in the *Forms and Instructions for Submitting Electric Transmission-related Data, Committee Final Report* (Energy Commission publication no. CEC-100-2008-012-CTF), to be presented at the California Energy Commission’s January 14, 2009 business meeting for possible adoption.
